

### SCOTT K. BOEN, CTP

**Scott K. Boen** has 30 years of financial, systems development and accounting and tax experience. He has experience assessing acquisition candidates and performing due diligence for distressed/underperforming businesses as well as viable going concerns. Scott has worked with more than 25 distressed automotive suppliers preparing cash flow and financial forecasts, viability assessments, funding strategies, implementing funding controls, and managing resourcing and wind down activities.

Mr. Boen has prepared and delivered merger and acquisition proposals for companies in the mining industry both in the U.S. and internationally. In addition he has completed numerous private placement memorandums, SEC filings and other financial analysis and modeling activities in support of complex transactions.

He has hands-on experience with businesses in crisis including vendor, creditor and other constituent negotiations, cash flow modeling, implementation of critical controls and reporting processes. He has been responsible for all financial reporting for initial bankruptcy filings and post filing reporting requirements.

Mr. Boen has experience in the automotive, mining, and energy industries as well as public accounting. He also held several accounting, tax and administrative positions early on in his career.
